IOTA R1400 silicone sealant

Product characteristics: 5-10 minutes after coating, mold can be closed, no adhesion to the substrate, excellent temperature resistance and sealing performance, temperature resistance 400 °C

Product description: Contains a certain solvent, the solid content is >30%, the product is a white single-component silicone resin sealant.

Application: Be used for sealing of metal parts.

Packing: 0.5L~10L plastic drum or customized according to customer requirements

Technical index:

Appearance: white, with solvent

Viscosity: 1000cp

Performance index:

Pressure resistance at room temperature sealing > 4MPa

Pressure resistance at 600°C > 4MPa, no adhesion to substrate

Curing conditions: Can be used after 5-10 minutes coating

Storage: The sealant should be stored in a cool and dry place with a shelf life of 1 year.

Note: The sealant contains a certain amount of solvent, it is best to operate in a ventilated environment
