## IOTA H1400 High temperature curing silicone sealant

Product characteristics: high temperature curing, excellent temperature resistance, long-term temperature resistance > 325 °C.

Product description: One component Si-O structure adhesive

Application: Be used for high temperature sealing between the engine blade and the hub or others.

Packing: 0.5L~10L plastic drum or customized according to customer requirements

Technical index:

Appearance: colorless transparent liquid

Viscosity: 300cp

performance:

The adhesive layer is aged at 400°C for 50 hours without cracking or powdering.

The adhesive layer is thermally shocked at room temperature to 400°C for 50 times without cracking or powdering.

Curing conditions: 2hours curing temperature 300 °C.

Storage: Shelf life is 6 months and Should be stored in a cool and dry place.

Note: There is a solvent in the adhesive, so it is best to use it in a ventilated environment.

ADD: Sunmoon industry park, 985 Xingzhong Road, Bengbu, China 233000
